Engineer's Report

Borough Engineer, Peter Avakian deferred to the Borough Administrator.

Borough Attorney's Report

Mr. Colao advised that he had several items for Executive Session.

Borough Administrator's Report

Mr. Dempsey reported on the following:

- **Adrian Avenue** – This roadwork to be tied into Newark Avenue. The cost estimate from the Borough Engineer is approximately \$230,000. It would include overlay and curbing. He felt that it should be considered. Mr. Dempsey to ask the CFO for available funding to limit the amount of bonding needed. The work would encompass Adrian Avenue between Vroom and Tuttle. Mr. Avakian asked for a decision in the near future so that it could be included with Newark Avenue documents and we can get the project done in the fall. Mr. Dempsey suggested adding it as an alternate to the bid so that we can decide when the cost is determined whether or not to move forward. Mayor Naughton stated that she would like to see it completed.
- **Infrared Work** – Some of the roadways in the area of Monmouth Avenue have been done. He felt that it looks good and he would like to seek funding to do some additional areas. He asked the Council to look at what has been done. It looks great.
- In line with that, he asked Dina to compile a list of all of the street opening permits from NJ Natural Gas. He will be reviewing them and then contact with them and advise that some of the roads they have dug up need to be repaired.
- **Water Tank – Washington Avenue** – The antennas have been placed on the water tower on Monmouth Avenue. They will be connected in the next week or so and he is hoping to have the tower removed right after Labor Day. The removal company is currently working in Texas.
- **Dispatch Meeting** – He received a letter from Freeholder Arnone on the County sponsored Shore Dispatch Center. The County is building a new dispatch center in Neptune where the senior center was. There will be a meeting on August 18th and he plans on attending with Councilman Drasheff and Chief Kerr. He felt it was a service that the County could do cheaper than we can. He will be asking Chief Kerr to weigh in on it.

Miss Twomey questioned how many culverts are still at our intersections. She expressed her concern about the one on the corner of Vroom and First Avenues. There is still a pipe there and she stated that people take that corner close and she is concerned that they will get caught on it. Mayor Naughton stated that it will be looked at but work like that is usually done as part of a road program.
